🎓 ACADEMIC & PROFESSIONAL SUMMARY

High-achieving 3rd-year Bachelor of Computer Applications (BCA) student specializing in Data Science at Alliance University, Bangalore (**9.5 / 9.4 CGPA**, Merit Scholarship Recipient). Accomplished in data analytics, business intelligence, full-stack web engineering, and AI sustainability development. Demonstrated expertise in processing complex datasets, formulating custom DAX measures, building natural language processing (NLP) sentiment engines, and leading university-level technical hackathons and cultural events.

🎓 ACADEMIC EDUCATION

Alliance University

Bangalore, Karnataka, India | Aug 2023 – Present

Bachelor of Computer Applications (BCA) — Specialization in Data Science

CGPA: 9.5 / 9.4

- **Academic Standing:** Awarded the prestigious **Alliance University Merit Scholarship** for top tier academic performance across all semesters.
- **Key Coursework:** Data Structures & Algorithms (DSA), Database Management Systems (DBMS), Data Analytics with Python, Business Intelligence & Power BI, Full-Stack Web Development, Data Warehousing & Mining, Object-Oriented Programming (Java, C++).

🛠 TECHNICAL STACK & CORE COMPETENCIES

PROGRAMMING LANGUAGES

Python, SQL, Java, JavaScript (ES6+), C++

DATA ANALYTICS & BI

Power BI, DAX, Power Query, Pandas, NumPy, EDA, Feature Engineering

DATABASE SYSTEMS & MINING

MySQL, PostgreSQL, Schema Modeling, Joins, ETL Pipelines, Data Warehousing

MACHINE LEARNING & WEB STACK

NLP, Sentiment Analysis, TextBlob, React, Node.js, Express, MongoDB, REST APIs

🏢 PRACTICAL INDUSTRY INTERNSHIP

1M1B (One Million for One Billion) & AICTE & Salesforce

Bangalore, India | 2024 – 2025

AI Sustainability Development Intern

Green Internship Program

- Engineered **CarbonTrace**, an AI-powered sustainability web platform calculating daily personal CO2 emissions from commute, electricity usage, and food habits.
- Formulated carbon footprint reduction algorithms and implemented interactive eco-action scorecards for users.
- Deployed full application to production environment on Netlify (carbontracev2.netlify.app).

KEY PROJECTS & RESEARCH WORK

WARLENS — Public Sentiment Analysis & Geopolitical Text Mining

2026

Role: Lead Data Developer

Tech Stack: Python, NLP, Pandas, TextBlob

- Manually structured and cleaned a multi-source news dataset of global conflict reports and articles for NLP processing.
- Constructed a sentiment classification pipeline classifying public news sentiment into positive, neutral, negative, and urgent alert metrics.
- Code Repository: github.com/Pooja27-web/WARLENS---NLP-PROJECT

Electric Vehicle (EV) Population & Market Intelligence Dashboard

2026

Role: BI & Power BI Analyst

Tech Stack: Power BI, Power Query, DAX

- Designed a 5-page interactive business intelligence dashboard analyzing **100,000+ EV records**.
- Wrote 10+ custom DAX measures for vehicle adoption rates, electric range distributions, and OEM market concentration.
- Derived 15+ key business insights regarding charging infrastructure readiness and EV adoption trajectories.
- Code Repository: github.com/Pooja27-web/EV-Power-BI

Domino's Pizza Sales Analytics & Inventory Optimization EDA

2026

Role: Data Analyst

Tech Stack: Python, Pandas, Seaborn, Matplotlib

- Executed exploratory data analysis (EDA) across **10,000+ transaction records** to evaluate purchasing trends.
- Identified peak ordering hours and top revenue-generating menu categories to assist management in optimizing kitchen inventory prep.

CampusCart — Peer-to-Peer Campus E-Commerce Platform

2025

Role: Fullstack Web Developer

Tech Stack: React, Node.js, Express, MongoDB, REST APIs

- Built a full-stack campus marketplace web app allowing students to buy, sell, and trade books, electronics, and study gear.
- Developed RESTful API endpoints for user authentication, product listings, category search, and real-time messaging.
- Code Repository: github.com/Pooja27-web/CampusCart-FSD

ACADEMIC HONORS & KEY ACHIEVEMENTS

- **Alliance Internal Hackathon 2026 — Top 12th Team Finalist:** Ranked in the **Top 12 Teams out of 203 participating teams** (advancing from Top 50 shortlists) for engineering data-driven prototype solutions under strict sprint timelines.
- **Alliance University Merit Scholarship Recipient:** Awarded for top-tier academic standing across semesters in BCA Data Science (**9.5 / 9.4 CGPA**).
- **1M1B & Salesforce Sustainability Recognition:** Selected for Green Internship Program, deploying AI sustainability applications for carbon reduction tracking.

LEADERSHIP & CAMPUS EVENT MANAGEMENT

- **Lead Event Organizer & Student Coordinator:** Spearheaded and managed major university cultural fests, coding hackathons, and technical symposiums at Alliance University, directing event logistics, budgeting, volunteer teams, and 500+ student attendees.
- **Academic Peer Mentor:** Conducted study sessions guiding junior BCA undergraduates in Python data structures, SQL database modeling, and Power BI visualization basics.

LANGUAGES & SOFT SKILLS

LANGUAGES SPOKEN

English (Professional), Kannada (Native / Fluent), Hindi

PROFESSIONAL ATTRIBUTES

Event Management, Data Storytelling, Cross-functional Leadership, Problem-Solving
