PROFESSIONAL SUMMARY

High-achieving 3rd-year Bachelor of Computer Applications (BCA) student specializing in Data Science at Alliance University, Bangalore (9.5 / 9.4 CGPA, Merit Scholarship Recipient). Accomplished in Data Analytics, Power BI DAX modeling, SQL database querying, and Python data pipelines. Proven track record processing 100K+ records, engineering NLP text sentiment engines, securing **Top 12th Team Rank out of 203 teams** in Alliance Internal Hackathon 2026, and leading university technical event teams.

EDUCATION

Alliance University **Bangalore, Karnataka, India | Aug 2023 – Present**
Bachelor of Computer Applications (BCA) — Specialization in Data Science **CGPA: 9.5 / 9.4**

- **Merit Scholarship Recipient:** Awarded prestigious Alliance University Merit Scholarship for top-tier academic standing across all semesters.
- **Core Coursework:** Database Management Systems (DBMS), Data Analytics with Python, Business Intelligence & Power BI, Data Warehousing & Mining, Data Structures & Algorithms (DSA), Java, JavaScript, C++, SQL.

TECHNICAL STACK & CORE COMPETENCIES

Programming Languages: Python, SQL, Java, JavaScript (ES6+), C++
Analytics & BI Tools: Power BI, DAX, Power Query, Pandas, NumPy, Exploratory Data Analysis (EDA), Data Normalization
Databases & Data Mining: MySQL, PostgreSQL, Schema Modeling, Joins, Subqueries, ETL Pipelines, Data Warehousing
Web Technologies & Tools: React.js, Node.js, Express.js, MongoDB, RESTful APIs, Git/GitHub, Netlify, VS Code

PRACTICAL INTERNSHIP EXPERIENCE

1M1B (One Million for One Billion) & AICTE & Salesforce **Bangalore, India | 2024 – 2025**
AI Sustainability Development Intern — Green Internship Program

- Engineered **CarbonTrace**, an AI-powered sustainability web platform calculating daily individual carbon footprint from commute, electricity usage, and dietary choices.
- Formulated carbon reduction scoring algorithms and deployed full application to production environment on Netlify (carbontracev2.netlify.app).

KEY ANALYTICS & SOFTWARE PROJECTS

Electric Vehicle (EV) Population & Market Intelligence Dashboard **2026**
Power BI & DAX Project | github.com/Pooja27-web/Electric-Vehicle-Population-Data--Power-BI-

- Engineered a 5-page interactive Power BI dashboard processing a dataset of **100,000+ Electric Vehicle records**.
- Formulated 10+ custom DAX measures for metric tracking and derived 15+ actionable business insights on EV adoption trends.

WARLENS — Public Sentiment Analysis & Geopolitical Text Mining **2026**
Python & NLP Project | github.com/Pooja27-web/WARLENS---NLP-PROJECT

- Manually structured and cleaned a multi-source news dataset of global conflict reports and articles for NLP processing.
- Constructed a Natural Language Processing (NLP) sentiment classification pipeline evaluating public news alert metrics.

Domino's Pizza Sales Analytics & Inventory Optimization EDA **2026**
Python & Data Analytics Project

- Executed exploratory data analysis (EDA) across **10,000+ transaction records** to uncover ordering trends and peak hours.

CampusCart — Peer-to-Peer Campus E-Commerce Platform

2025

Full-Stack Web Project | github.com/Pooja27-web/CampusCart-FSD

- Architected a full-stack campus marketplace web app using React, Node.js, Express, MongoDB, and RESTful APIs.

HONORS, LEADERSHIP & CERTIFICATIONS

- **Alliance Internal Hackathon 2026:** Ranked **Top 12th Team Finalist out of 203 participating teams** (advancing from Top 50 shortlists) for data-driven prototype solutions.
- **Leadership & Event Management:** Lead Event Organizer directing university cultural fests & hackathons for 500+ student attendees; Academic Peer Mentor in Python, SQL, and Power BI.
- **Verified Credentials:** IBM Data Analysis with Python, Salesforce 1M1B, UIUC Data Visualization, Meta Databases, UMich Python, IBM Data Warehouse Fundamentals.
